

## PROJECT UPDATE

### DURANT 8<sup>TH</sup> STREET RECONSTRUCTION PROJECT

April 21, 2017

The 8<sup>th</sup> Street Reconstruction Project has resumed this Spring, and BWC has made significant progress despite rainy weather over the past few weeks.

BWC has spent most of their time finishing up grading, forming, and pouring of boulevard sidewalks and driveways. Horsfield Construction one of BWC's subcontractors, is back on site again as well. They have been spending the majority of their time preparing and pouring ADA compliant sidewalk ramps at intersection locations.

As of Friday, April 21<sup>st</sup>, BWC intends to continue sidewalk and driveway work into next week. Some of the remaining items for BWC to address include the grading and seeding of disturbed boulevard areas, the installation of asphalt patches for intersection transitions, and pavement striping. BWC intends to have the project complete around mid-May.

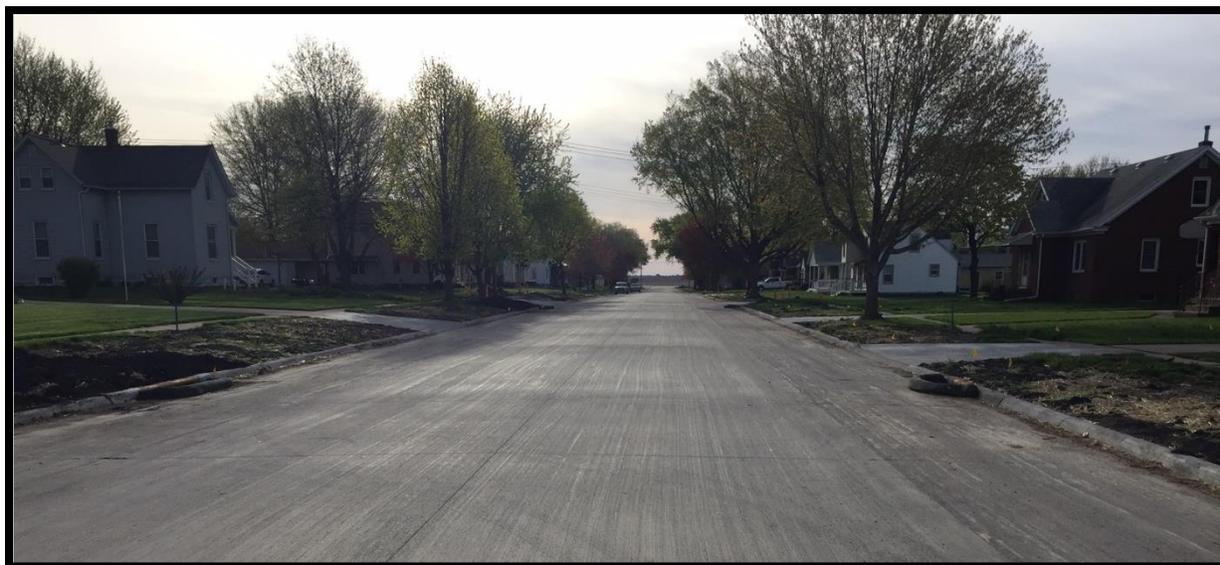

Shortly after seeding and site restoration is complete, mailboxes will be relocated to locations determined by the United States Postal Service.

When the project is nearly complete, BWC, the City of Durant, and MSA will complete a project walk-thru and prepare a punch list of any remaining items for BWC to complete before the project can be approved for final completion.

Your patience is appreciated as BWC, the City of Durant, and MSA work together for a successful completion of this much needed project. Please take time to be extra cautious when near the construction zone, as there may be a number of crews working at any given time.

## PROJECT UPDATE

---

Please feel free to contact Nate Stevenson and Scott Duckett with MSA or Durant City Hall during construction if you have any questions, comments, or concerns.
