

NEW CURBSIDE LEAF VACUUMING ROUTINE THIS YEAR

The City of Durant Will Use Zones and Schedules for Leaf Vacuuming

NEW starting this year, your address will be assigned to a zone. The crews will pick up on Monday, Wednesday and Friday only in your zone during the scheduled dates. Please see reverse side for map and schedule of your zone. Please do not call City Hall or Public Works if you have leaf piles. The crews will get to your residence during the week scheduled. Durant Public Works employees will begin picking up leaves at the curb on October 15 through November 21, 2018.

Residents are asked to rake the leaves into a pile or windrow behind the curb line, off the street. **DO NOT RAKES LEAVES IN TO THE STREET OR GUTTER. DO NOT MULCH LEAVES**, if you want the vacuum to pick them up.

Any piles of leaves containing non leaf debris such as grass clippings, garden waste or branches will not be picked up.

Please make sure your piles are not blocked by parked cars. The truck and leaf machine have to be able to park at the curb in order to vac up the leaves. Any parked cars near the pile will not allow enough room for the truck and machine to do the job. Keep piles away from mailboxes, and storm drains.

LEAVES NEED TO BE AT THE CURB BY 7AM. If leaves are not picked up on the exact day due to weather conditions or volume of leaves, they will be picked up at a later time that week. If residents wish they may take leaves to the compost site, or utilize yard bags and purchase \$1 stickers at city hall for the garbage company to pick up every Tuesday with garbage route.

Every effort will be made to maintain the weekly schedules. Please see the next column and map on the backside of this card to find your zone and scheduled leaf pick up.

The purpose of this program is to provide the curb service, and keep leaves out of the sewer system which causes major problems for the city and residents. *Thank you for your cooperation with this program.*
